

Thanks to Commissioner Adelstein for appearing in San Francisco last Saturday 4/26/03. I listened to the hearing over KPFA FM 94.1. I am extremely disappointed (but not surprised) that the current Republican FCC board is preparing to ram through changes that will allow further consolidation in ownership of broadcast media. The hearing in San Francisco demonstrated the overwhelming public opposition to this move. The working folks of the USA who survive by respecting their fellow citizens and operating in good faith are MANY; the greedy Republicans putting these unfair and ill fated rule changes through are, thankfully, FEW. It would be refreshing if the Republican commissioners would listen to Mr. Adelstein, see the light, and do the right thing by abandoning any further consolidation of media ownership.
